22029 FD.Project - Roots

German TXT.

Vor zwei Jahren ver♦ffentlichte der aus dem nordrheinwestf♦lischen Dinslaken stammende Musiker Frank Dorittke aka F.D. Project sein letztes Studioalbum unter dem Titel ♦Timeless II♦. Im Herbst 2018

erscheint sein mittlerweile elftes Album, das den Titel **Roots** trägt. Auf diesem Album geht er zu seinen musikalischen Wurzeln zurück und huldigt seinen Heroen der elektronischen Musik. Insgesamt sieben Stücke mit Laufzeiten zwischen 6:30 und 11:51 Minuten Spielzeit hat er komponiert und im Alleingang eingespielt. Dabei bricht dann auch wieder seine Kombination von elektronischen Sounds und atmosphärischen Gitarren hervor.

Pulsierende Synthieklänge leiten zunächst in den ersten Track **Roots** ein. Dem spendiert Frank anfangs einige elektronische Effekte und lässt den Synthierhythmus weiter in den Vordergrund treten. Nach einigen Momenten kommen Harmonien auf und das Stück gewinnt immer mehr an Dynamik und Fahrt. Das ist wie immer bei seinen Produktionen hochgradig spannend. Recht stoisch treibt dieser erste Track mehr als neun Minuten dahin, sich immer nur durch verändernde Klangmuster verändernd. In diesem ersten Track der erst in der zweiten Hälfte mit einer leichten Melodielinie aufwartet, steht der Rhythmus klar im Fokus.

Der zweite Track **Revolution** (der Name erinnert an Jean Michel Jarre) klingt ein wenig unterkühlt. Hier trifft nach einigen Momenten ein stampfender Beat auf sehr schöne Harmonien. Dieses Stück nimmt seine Faszination aus dem Zusammenspiel aus Elektronik und der nach einer Weile einsetzten E-Gitarre, die so typisch für Frank ist und keiner so gut platzieren kann, wie er. Ich meine ein paar wenige Sounds herauszuhören, die an Jarre erinnern, aber es ist vor allem Frank's hypnotischer Stil, der diesen Track prägt.

**Deep Dream** nennt sich der dritte Track, der sich Sequenzer orientiert zeigt und so eine Hommage an Tangerine Dream darstellen könnte. Aber auch hier dominiert klar Frank's musikalische Handschrift, die diesen sehr rhythmischen Track prägt. Nach etwas mehr als zwei Minuten übernimmt dann eine helle Synthiestimme die Melodieführung. Das hat auch einige Elemente der **Eindhovener Schule** im Stile von Ron Boots.

Der nächste Track zeigt schon im Titel **50 Years Of TD** wem es gewidmet ist. Mit diesem Stück erinnert Frank an die 50 Jahre andauernde Erfolgsgeschichte von Tangerine Dream und hier im

Besonderen der 70er/80er Jahre. Herrliche Sequenzermuster (tuckernd, wabernd flirrend), so wie man sie von der Berliner Formation her kennt, bestimmen das Bild. Ein Stück das über die volle Länge von fast zwölf Minuten nicht langweilig wird und sich stetig entwickelt.

Seine Bewunderung für den Briten Mike Oldfield ist bekannt und dies zeigt er ansatzweise in dem Track *Bells*. Einiges in diesem Stück erinnert aber auch beispielsweise an John Dyson. Und doch hat Frank keinen Klon der genannten Personen erschaffen, sondern zeigt auch hier seine ganz eigene Handschrift.

Der Track mit dem Titel *B.T.T.R.* bedeutet nichts anderes als Back To The Roots. Das ist ein treibendes Stück Musik, mit einer herrlichen Rhythmusstruktur. Dadurch bekommt er einen Drive, wie eine schnelle Dampflok. Im letzten Drittel bereichert Frank diesen Track dann mit einer hinreißenden Gitarrenpassage. In diesem Stück vermischt er Elektronik- mit Rockmusik auf perfekte Art und Weise.

Das neue Album beschließt Frank dann mit dem Stück *Open Land*. Sehr atmosphärisch beginnt dieses Stück mit Synthieflecken auf die Frank einige Klangtupfer legt. Rhythmisch und verträumt zugleich entlässt uns dann Frank aus seinen musikalischen Erinnerungen.

Frank Dorittke schafft es immer wieder Alben einzuspielen, die man blind kaufen kann und von denen man nicht enttäuscht wird. Dabei geht er, wie auch auf *Roots*, immer sehr abwechslungsreich vor. Ein klasse Album.

25562 Son of Ohm - Electronic Muse

Do you remember Adelbert Von Deyen? Of his first albums where the ambient rhythms used to rise and tumbled down dunes of sounds soaked in ether? It's a little, very much, the ambiances of the second album of Son of Ohm to be have been released in 2018. A bit like Blackbirds, ♦Electronic Muse♦ was conceived in spontaneity. If the idea of a tone embalmed of iodine and ether and of a specific flow germinated in the head of Leonardo Soundweaver for a long time, it's only after having designed this exact synth patch that Son of Ohm undertook the writing and recording of his 4th album which is available only in downloadable format. One week was enough for the mix, the effects of gliss overdubs and mastering so that in the end ♦Electronic Muse♦ offers a texture worthy of a good old ambient Berlin School.

Distortion waves and electronic chirps illuminate the route of organ pads which open the ambient procession of "Electronic Muse Part I". We are in the cradle of the Berlin School of the Blackdance and the New Age of Earth years with this mist of ether that advances as the title eats the seconds of its time. Slow to develop, "Electronic Muse Part I" is like a sonic bird raptor that whirls in the loops of its circles while the rhythmic structure sculpts this ambient pace where the sequences go up and down an invisible staircase. The sweep of the layers leads us into a voracious whirlwind and the effects of distortions tear down this mesh of rhythm and euthanasiatic moods with jerky jolts which flirt with the psychedelic approaches of that era. The second part of the title offers a more musical approach with a more fluid rhythm and more disparate sound effects montage.

"Electronic Muse Part II" advances on hot breezes before colliding with a first wall of very reactive sound effects. Circles, like kaleidoscopic effects, spin with increased velocity whereas jingles of woods are dancing tap-dancing in an environment blown by sounds and steams of sound machinery. At first undisciplined, these clacking of wood find a din cohesion in a storm of spheroidal elements as much disturbing as the unleashing of the winds and the effects of this title purely of ambiances ... non-meditative. "Electronic Muse Part III" is the most animated title in ♦Electronic Muse♦. Its opening is drinking of the percussive ambiances and effects of "Part II". A delightful movement of the sequencer emerges from a convulsive tap dance, straightening "Part II" in a beautiful electronic texture which flows between stereo effects of distortions as well as parasitic and lunar sounds in a structure as musical as the 2nd part of "Part I". "Electronic Muse Part IV" finishes this last opus of Son of Ohm with a nice ambient structure without noises but all in emotions with a cloud of layers to the paradisiacal colors.

I must admit that the learning of ♦Electronic Muse♦ is not done smoothly at the level of the eardrums. The sound effects as well as these synth and organs pads that flicker like flames too drenched with alcohol require greater musical curiosity, but should however please

the aficionados of this time of Manuel G♠ttsching and Klaus Schulze first albums, without forgetting the nebulous world of Adelbert Von Deyen. Pure ambient Berlin School that follows Blackbirds very closely! That's what is waiting for you with this latest Son of Ohm's album; ♠Electronic Muse♠.
